The Global Innovation Index 2021 (GII) takes the pulse of the most recent global innovation trends and ranks the innovation ecosystem performance of 132 economies.

The world is struggling to cope with the COVID-19 pandemic and its new Global Innovation Tracker section, the report draws on a select set of indicators, including the effects on research and development expenditures or access to innovation finance, to provide a perspective on the pandemic’s impact on global innovation performance.

The GII is published by the World Intellectual Property Organization (WIPO), a specialized agency of the United Nations in partnership with the Portulans Institute.

GII Launch Event Partners and Contributors, including Chandrajit Banerjee, DG CII, Francis Gurry, DG, WIPO, Piyush Goyal, Minister of Railways and Commerce, Prof. Soumitra Dutta, Founder and Co-Editor GII, Carsten Fink, Chief Economic, WIPO, Sacha Wunsch-Vincent, Co-Editor GII, and Gianna Sagazio, Innovation Head Director, CNI Brazil.
The GII is unique in presenting a rich database of variables affecting innovation policies, debates and actions. It has been used by numerous researchers to analyze different facets of innovation in local and national contexts.

A search on Google Scholar for the keywords “Global Innovation Index” produces over 18,500 results, with 3,000 results since 2020. A large number of leading academics and subject matter experts have also contributed thematic chapters to various editions of the GII.
As of 2021, an Academic Network was established to engage the world-leading universities and their faculty and graduate students in the GII research and to support the dissemination of the GII results in the academic community. The Academic Network welcomes researchers and institutions active in diverse fields including science, law, business management and public policy. We extend our gratitude to all Academic Network partners for their support.

**MODES OF PARTICIPATION:**

- Participate in the activities of the GII of a global community of experts lead by WIPO and Portulans Institute (PI).
- Access to data for research and the ability to provide academic input to the GII team.
- Participate in the discussion and dissemination of GII results at various events.
- Co-host innovation research events, engaging academic researchers and interested corporate participants.
- Identify faculty members or a member of the research staff to work closely with WIPO and PI, potentially joining PI as a Fellow for a relevant Community of Practice Program.
Since the launch of the 12th edition of the GII in July 2019, the report has been downloaded over 260,000 times and has received over 580,000 online views.

Previous global and national launches have included Ministers from Brazil, China, France, Germany, India, Japan, the Philippines, Rwanda, Tanzania, Turkey, the United Kingdom, and many others (see videos).
